

**We are doing our best to ensure safe and quality transport.  
For this to be possible, do your part and stick to the following simple rules:**

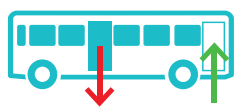

**Don't use the service in case of flu symptoms and/or body temperature equal to or greater than 37.5°C.**

**On board: it is mandatory to use the surgical mask or other higher-level personal protective equipment.**

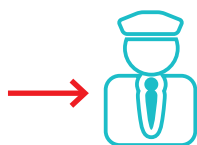

**Keep a safe distance from other passengers, both when waiting at the stop, both during the ascent / descent operations. Where this is not possible, wear a surgical mask or higher-level personal protective equipment.**

**Use the access doors to the vehicles indicated for ascent and descent; when possible, respect the safety distance. Before boarding, drop off the passengers on board.**

**Use the seating and spaces as directed by the signalling.**

**In case of request for information to the driver keep the safety distance.**

**Due to the health emergency the bus has a reduced number of seats.**

**It is preferable to buy tickets at retailers or bus stations or through the app Arriva MyPay; it is also possible to purchase on board.**
